## Education

---

Kalinga Institute of Industrial Technology  
Computer Science & Engineering(CSE) - B.Tech  
**CGPA: 9.61/10**

Bhubaneswar, Odisha  
August 2024 - June 2028

## Experience

---

### Contributor

#### GirlScript Summer of Code · Remote

October 2024 – November 2024 (2 months)

Selected as a contributor in a competitive open-source program.

Collaborated remotely on real-world open-source projects, resolving issues and contributing quality code.

Gained experience in version control (Git), issue tracking, and pull request workflows.

Strengthened problem-solving and communication skills while working in a team of developers and mentors.

## Skills

---

Programming Languages: C, C++, JavaScript, TypeScript

Web Technologies: HTML, CSS, Git, GitHub

Frameworks & Libraries: React.js, Next.js

## Projects

---

### Coffee Cafe | [Live](#) | [GitHub](#)

Tech Stack: HTML, TailwindCSS, JavaScript, React.js, Vite, Git, GitHub, Vercel

Designed and developed a modern, responsive cafe website using React.js and TailwindCSS, offering a clean and interactive UI. Implemented smooth navigation and animated components to enhance user experience and engagement. Used component-based architecture to create reusable UI blocks like menu cards, hero section, and footer. Deployed the website on Vercel with custom domain handling and optimized performance via Vite bundler. Practiced version control and collaborative development using Git and GitHub.

### Image Searcher | [Live](#) | [GitHub](#)

Tech Stack: React.js, Tailwind CSS, JavaScript, Unsplash API, Git, GitHub, Vercel

Developed a responsive image search application using React.js and Tailwind CSS, integrating with the Unsplash API.

Implemented real-time search with asynchronous API handling and error management for smooth user experience.

Utilized Vite for fast development and optimized build performance.

Deployed the app using Vercel, following modern deployment and CI/CD practices.

Practiced clean UI design, semantic HTML, and component-based architecture for scalability.
